

Program sekce M6-Učebna Z6			
1. blok 9:20-10:40		3. blok 12:00-13:00	
Martina Moravcová	Critical exponent of infinite words coding beta-integers	Tereza Škublová	Parameterized Constructibility of Two-Dimensional Simplicial Complexes
Zuzana Kulhánková	Hamiltonovský index a hamiltonovský cestový index	Jan Hartman	Topological Approach to Norine's Conjecture
Klára Grinerová	A general upper bound on multicolor ordered Ramsey numbers	Michal Katrlík	Z2-genus of graphs and Hanani-Tutte theorems
Lukáš Gáborik	Constructing flows from flow-pairs		
4. blok 13:50-15:10			
Elena Benešová	Duhová souvislost orientovaných grafů		
Martin Andričik	Many holes but no big one		
Adam Džavoronok	Results in the Manickam-Miklós-Singhi Conjecture		
Nikoleta Pappová	Maximálne hranové q-zafarbenie regulárnych grafov
